

SUNSHINE SUNCATCHER

1

The sun is always shining with this simple but effective craft!

You will need:

- Paper plate
- Yellow and/or orange card
- Yellow tissue paper
- Black marker pen

Other things you'll need:

- Glue
- Scissors
- Pencil
- Sticky tape

How to make it:

- 1 Cut out the middle of the paper plate to make a ring. Save the cut-out piece for another craft project.
- 2 Cut a piece of yellow tissue paper big enough to cover the hole in the centre of the paper plate ring. Attach the tissue paper over the hole, at the back of the paper plate, with glue or sticky tape.
- 3 Take a sheet of yellow or orange card and draw around your hand. Cut out the hand shape.
- 4 Use the shape you have just cut out as a template to draw and cut out lots more hand shapes from card. You will need enough to go around the paper plate ring.
- 5 Stick the hand shapes around the paper plate ring using glue or sticky tape.
- 6 Finish by using a black marker to draw a smiling face on the tissue paper in the middle of the suncatcher.
- 7 Hang the finished suncatcher on a window or somewhere the light can shine through the tissue paper.
